

YOU COULD DO IT **RIGHT!** PROBLEM: SOLUTION:

I have "developed" yellow Lesions on my *Shallow Bone Parts* (Hip, Wrist, Nuckles.) and they will not fade or heal with treatment.

RIGHT:

A sample image of my left hand, with Lesions included at *Thin Skin Regions*. I took this picture with my point and shoot digital camera one day ago. It is Very Current.

HERE IS THE ADVICE:

Avoid old business-type men. There is always a small little bit of cunk between their fingers. **YOU'LL GET SICK AND ILL AND LESIONS FROM IT!**

"**My Lesions**" were caused by the Prant Dogs. You know the ones. They just squeal about everywhere in the streets of Talbotton.

There ARE muscle groups that you should not be working out!

- 1) Skin Folds. Stop this one now.
- 2) Blue eyes. If you exercise these then you are falling for the lies that they Peddle.
- 3) The Moose Clave. You may not know that you are flexing this one! Watch out.

(1) AVOID!
Skin Folds

(2) AVOID!
Blue eyes

(3) AVOID!
The Moose Clave

AND WHAT IF "that don't" WORK FOR YOU?

Perhaps you have a "Weird" Body or nature???
Maybe your Moose Clave is already TOO STRONG?
Well.....
Try This!

Heal-em-Ups®
by
CAPIARY™
SUSPENSION FRAMEWORKS & INFRASTRUCTURE

RIGHT:

Three Heal-em-Ups® by Capiary™.

BELOW:

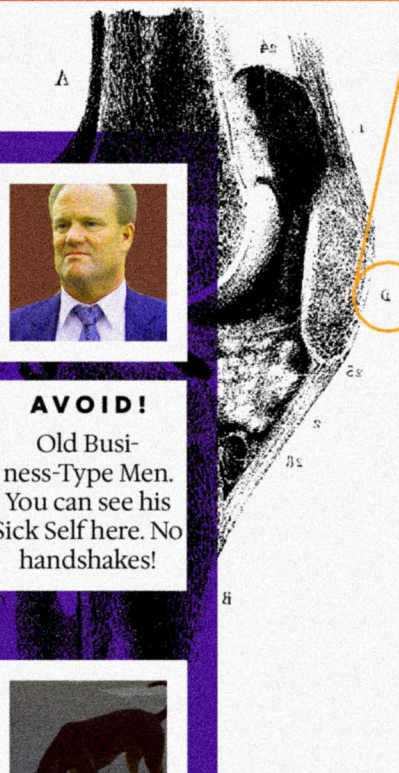

A kneecap illustration showing ideal insertion position for Heal-em-Ups® by Capiary™ (G).

The Heal-em-Up® by Capiary™ for Knee Lesions (Kneesions) is inserted directly in the skin above the patella, to thicken it and prevent future Lesions. A similar method is employed for the rest of the other *Shallow Bone Parts or Zones*.

NOTE:

There are temporary side effects, including Powerful "Lesion-Likes" which weep and Sting. They are expected to fade with time, and leave a *beautiful* dress meat above the bone below!

AVOID!

Old Business-Type Men. You can see his Sick Self here. No handshakes!

AVOID!

A Prant Dog down in Talbotton, Georgia

If you Suffer in any way from Skin Shal-lowness and Resulting Open Weeping Sores, then Consider investing in the Heal-em-Up® by Capiary™ for Knee Lesions (Kneesions). Also offered for Nuckles, Hip Honks, & Wriststs.

YOU SHOULD TRY IT
