

See the world from anywhere.

The Mhunck Digital Pan-Oculite™ brings the comfort and accessibility of heads-up displays to 2.3 centimeters away. The Pan-Oculite™ is the multitool of the digital age: binoculars/microscope (72x optical zoom), 60MP camera, monitor with native 1M resolution, media compiler, and GNU/Linux-based HUD.

Features a Tempsil™ handcrafted display suspended by proprietary mag-tech, and Stield™ grips for ergonomics and control.

Headstrap available separately.

All rights reserved. Patents No. 16,233,349.447; No. 16,233,349.941; No. 16,234,022,301. Pan-Oculite™ is registered to Mhunck Digital and affiliated with Klomic, Inc. Product assembled in Wotton, CE. Software support provided by Kelloran Imaging. Produced with water sourced from Gritch County Water Authority. Terms and conditions apply. See www.panoculite.com for details.
