

We've been there too.

It's the holiday season. You're home with your family. You've eaten your fill, and now you're sitting on the couch, catching up with everyone. But you just *can't* shake the feeling that it'd be even better if you felt like you'd just drank a gallon of milk.

Dr. Mosterley & Sons MILK PASTE

Your grandma swears by it, and so does her doctor!

Dr. Mosterley & Sons Milk Paste utilizes a revolutionary and proprietary combination of carefully selected chemicals to make your mind think it's just drunk a gallon of milk. The chemicals penetrate directly to the stomach, mouth, and brain in a matter of minutes.

Milk Paste is designed for exterior application only. Apply a dollop to a finger or applicator, and spread in and around the sore. Within 30 seconds to a minute, you will feel a horrible pain in your gut and a strange, sticky mucus coating your throat. You will also be disappointed in yourself. You're welcome.

Use as directed. Any improper use of Dr. Mosterley & Sons Milk Paste is not covered by warranty or return policy.

Dr. Mosterley & Sons MILK PENCIL

The grandmothers of Dr. Mosterley & Sons Milk Paste utilized a combination of carefully selected chemicals to make your mind think it's just drunk a gallon of milk. The chemicals penetrate directly to the stomach, mouth, and brain in a matter of minutes.
